Applicants elected the invention of claims 1, 3, 4, 11, 14 and 26-29 without traversed in Paper No. 7. Applicants, further, canceled the other claims from the specification.

The nonstatutory double patenting rejection is based on a judicially created doctrine grounded in public policy (a policy reflected in the statute) so as to prevent the unjustified or improper timewise extension of the "right to exclude" granted by a patent and to prevent possible harassment by multiple assignees. See *In re Goodman*, 11 F.3d 1046, 29 USPQ2d 2010 (Fed. Cir. 1993); *In re Longi*, 759 F.2d 887, 225 USPQ 645 (Fed. Cir. 1985); *In re Van Ornum*, 686 F.2d 937, 214 USPQ 761 (CCPA 1982); *In re Vogel*, 422 F.2d 438, 164 USPQ 619 (CCPA 1970); and, *In re Thorington*, 418 F.2d 528, 163 USPQ 644 (CCPA 1969).

A timely filed terminal disclaimer in compliance with 37 CFR 1.321(c) may be used to overcome an actual or provisional rejection based on a nonstatutory double patenting ground provided the conflicting application or patent is shown to be commonly owned with this application. See 37 CFR 1.130(b).

Effective January 1, 1994, a registered attorney or agent of record may sign a terminal disclaimer. A terminal disclaimer signed by the assignee must fully comply with 37 CFR 3.73(b).

Claims 1, 3, 4, 11, 13, 14 and 26-29 provisionally rejected under the judicially created doctrine of obviousness-type double patenting as being unpatentable over claims 1, 4-6, 10, 12 and 20 of copending Application No. 09/360,020. Although the conflicting claims are not identical, they are not patentably distinct from each other because instant claims are directed to treating multiple myeloma (MM) while the copending application is directed to treating leukemia.

This is a provisional obviousness-type double patenting rejection because the conflicting claims have not in fact been patented.

Applicants state on page 5, last two lines that "... leukemia, such as a CLL or MM patient", clearly, applicants are calling MM a form of leukemia.

Claims 1, 3, 4, 11 and 13 are rejected under 35 U.S.C. 112, first paragraph, because the specification, while being enabling for the specific analog disclosed, does not reasonably provide enablement for the term "an analog". The specification does not enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to use the invention commensurate in scope with these claims. The term "an analogy" in claim 1, 3, 4, 11 and 13 lacks clear exemplary support in the specification as filed.

The Wechter et al patent is cited to complete the record.
